

## Table of Contents

Exploration on Teaching Reform for the "Database Principles and Applications" Course Based on CDIO-OBE Concept	1
<i>Qing Qu, Yuxin Li</i>	
A Case Study on Integrating Professional Ethics into General Artificial Intelligence Education Empowered by AIGC	10
<i>Rong Feng</i>	
Undergraduate Graduation Design Practice in Computer Science and Technology	16
<i>Yuxuan Dong</i>	
Research on the Path to Enhance Blended Teaching Quality in Software Engineering under the OBE Concept	27
<i>Songhao Li</i>	
AIGC-Empowered Efficient Personalized Lesson Preparation System	35
<i>ChenXi Nan</i>	
AI-Driven Case Teaching in College Political Education	45
<i>Boyang Wei</i>	
Artificial intelligence will empower education in 2025	54
<i>Mengzhuo Zhao</i>	
On the Learning Path of Zhu Guangqian's Psychology of Literature and Art	63
<i>Wen Chen</i>	
The Frontier of Autonomy: A Comprehensive Analysis of Advanced Artificial Intelligence and Agentic Systems	73
<i>Anas Muhammad</i>	
Implementation and Evaluation of Lightweight Deep Learning Models for Real-Time Underwater Image Enhancement: A Comprehensive Review	84
<i>Asante Emmanuella Nana Akua</i>
